

CA Media Filter

- ✓ Premium 10 lateral under drain designed for low pressure loss which requires less power consumption for optimal flow rates
- ✓ Unique under drain ensures effective backwashing in less time saving water
- ✓ Fully injection moulded for high strength and longer life
- ✓ Suitable for Sand, Viron Glass and other filter media
- ✓ Unique lock ring secures valve in just seconds and enables faster and lower cost maintenance and installation

AstralPool CA Media Filter

AstralPool's CA Media Filter is 100% designed and made in Australia from the most advanced injection moulding and assembly process of any filter. Engineered and designed for high strength, long life, optimal flow rates and easy installation and service the CA Media filter range provides the best value for money and is designed for tough Australian conditions.

The AstralPool CA Media Filter produces crystal clear water using fine sand or recycled crushed glass media as the filter medium. Each filter incorporates an engineered multiport valve to direct the water flow and minimise the resistance through the filter, making the CA Media Filter ideal for today's energy efficient high performance pumps.

The CA range represents the largest investment in design and production for any residential filter range using high quality hardened steel tooling to produce high tolerance, high strength tanks which provide the longest trouble free life available. This high tolerance enables the screw on lock ring to secure the multiport valve along with self sealing barrel unions which enable fast, simple installation, easy service and access to the filter media in future years.

Low resistance to water flow means less energy required by the pump and power savings to you. Simple and easy installation means lower installation

and maintenance costs. High quality components such as the oil filled pressure gauge, corrosion free clamp band and valve connections, and fast draining of water and filter media for maintenance mean the CA range is economical and easy to maintain and service for the life of the product.

AstralPool CA Sand Filters are perfect to combine with Viron Glass filter media for clean, healthy and sparkling pool water.

MODELS

The CA range is available in 3 models complete with 6 way multiport valve, pressure gauge and air release, barrel unions and backwash sight glass.

WARRANTY

Each filter is covered by a limited 10 year warranty on the tank and 12 month warranty on the valve and internals. For more information go to astralpool.com.au

CAPACITY TABLE

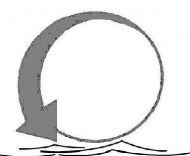

Model	Tank Diameter	Filter Area	Port Size	6 Hour Turnover	8 Hour Turnover	Sand Required	Course Glass Media	Fine Glass Media
CA280	650mm	0.30 Sq M	40 mm	100,800 ltrs	134,400 ltrs	120 kg	3 Bags	5 Bags
CA340	750mm	0.38 Sq M	50 mm	115,200 ltrs	153,600 ltrs	150 kg	4 Bags	6 Bags
CA400	820mm	0.46 Sq M	50 mm	144,000 ltrs	192,000 ltrs	200 kg	5 Bags	7 Bags

DIMENSIONS WITH VALVE INSTALLED

Model	Height	Shipping Weight
CA280	106 cm	20 kg
CA340	107.6 cm	22 kg
CA400	123.3cm	28 kg
