## High Performance Suction Pool Cleaner

The new Davey PoolSweepa® Suction Cleaner is a diaphragm type cleaner that cleans the floors and walls of swimming pools.

## WHY CHOOSE THE Davey PoolSweepa® Suction Cleaner?

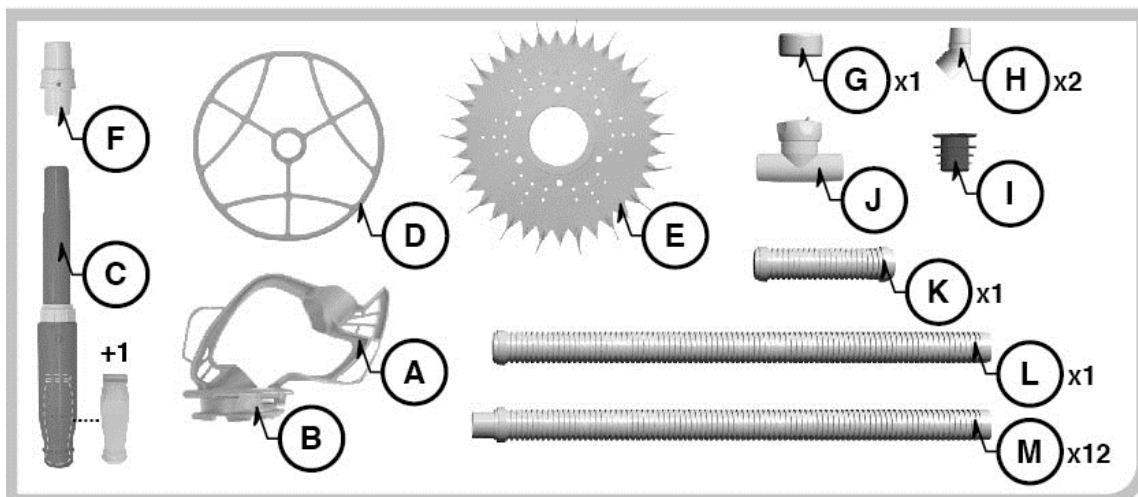

The Davey PoolSweepa® Suction Cleaner is easy to connect through a skimmer box or dedicated suction line of an inground or above-ground pool. It's light weight design combined with a high performance spiral wound vacuum hose, enables it to move and clean rapidly across pool floors and walls. The diaphragm system ensures very silent operation, easy passage of debris and low maintenance owing to just one moving part.

### Features:

- Twist and lock design provides quick and easy access to change the diaphragm
- Integrated handle facilitates carrying and lifting from the pool
- Diaphragm design ensures quiet and efficient cleaning with simple maintenance
- Finned skirt for easy climbing over steps, main drains, lights and obstacles
- 10.4 metres of high performance spiral wound vacuum hose reinforced with glass fiber for extra durability
- Large circular deflector and weighted bumper to navigate around steps, ladders, and corners in even the most complex pools
- Climbs walls and is suitable for inclined floors
- Light weight design for rapid and smooth movement across the pool floor and walls
- Suitable for concrete, fibreglass and vinyl lined pools
