

Navigator[®] V-Flex[™] SUCTION CLEANER

 NEW

Patented SmartDrive[®] programmed steering helps Navigator[®] V-Flex[™] move faster and more efficiently around any pool shape.

Equipped with patented V-Flex[™] variable vane turbine technology, Navigator V-Flex[™] easily picks up larger dirt and debris while virtually eliminating clogs. Its versatile design maximizes power at almost any flow, making it the perfect partner for variable-speed pumps, and its patented SmartDrive[®] programmed steering determines the most efficient cleaning path around any pool for complete, reliable coverage. With these and other powerful features, it's time to rediscover your favorite pool cleaner.

Unique design virtually eliminates clogs without sacrificing energy efficiency.

Navigator® V-Flex™ is designed to work better and last longer than any other suction cleaner. Its patented V-Flex™ technology, wide vacuum inlet and unique wing design prevent clogging while delivering maximum suction power, even at low flow. This makes the cleaner ideal for use with variable-speed pumps—delivering cost-cutting energy savings with results that won't disappoint.
