M0404

M0413

DAVEY
OzoMatic®
Ozone Generator

Model Numbers:
For Spas M0431, M0450AMP
For Pools M0406, M0407

OzoMatic can be used in addition to traditional sanitation methods to improve water quality and reduce chemical usage.

WHY CHOOSE THE Davey OzoMatic Ozonator?

Ozone is a welcome addition to conventional water treatment methods. OzoMatic's advanced but simple technology was developed from mother nature's own way of purifying our rivers and lakes and the air in which we breathe.

How does OzoMatic work? – OzoMatic takes oxygen from the air and converts it into very safe levels of ozone. When ozone is introduced into your pool or spa water, it will remove contaminants and chemical by-products which cause poor water quality and unpleasant odours.

Extensive research into Ozone Generation and effective injection techniques have enabled the development of a superior ozone system using the highest quality components and latest technology available meaning virtually no maintenance, minimal chemical additions and lower running costs.

It's gentle to your skin and body

Ozone has a clean fresh scent. It will not irritate eyes, skin or discolour hair. It's particularly suitable for both above and below ground pools and all spa pools.

Safe for the environment

Ozone does not contain harsh chemicals. It starts as oxygen and finishes as oxygen.

Economical to run

OzoMatic Ozone Generators substantially reduce chemical usage and cost only a few cents a day to operate.

Ozone is a very powerful oxidiser

Ozone sanitises spa and pool water effectively and removes bacteria, body oils, urine, deodorants and soaps.

The perfect combination

Install an OzoMatic Ozone Generation System on your swimming pool or spa together with your ChloroMatic or EcoSalt Salt Water Pool or Spa System for the most pristine crystal clear water quality possible.

SPECIFICATIONS			
Type	M0431 M0450AMP	M0406	M0407
Capacity Spa**	2000	3500	7000
Capacity Pool**	15000	60000	120000
Height (mm)	300	550	550
Width (mm)	150	150	150
Depth (mm)	75	75	75
Weight (kg)	2.3	5.0	5.6
Current (A)	0.16	0.36	0.72
Power (W)	36	83	166
Output* (g/hr)	0.08	0.25	0.5
Required airflow SCFH	8-10	8-10	16-20
Recommended Injector	M0404, M0413	M0404, M0413	M0404, M0413

**when used as a supplementary sanitiser.

*outputs may vary with airflow, temperature and humidity.
Commercial Applications refer Davey Water Products
