

VTX-3

KREEPY KRAULY

KREEPY KRAULY **CLEAN AND COMPACT**

Scrubs compact pools efficiently

The powerful Vortex generates a vacuum that sucks up debris and creates a gentle scrubbing action to remove algae and calcium build up.

THE **VTX-3** DIFFERENCE

With the VTX-3, we've taken the same Vortex Cleaning Technology of our top of the range VTX-7 model and condensed it. The VTX-3 has a smaller main body and pipes making it ideal for compact pools, but don't let its small size fool you. VTX-3 creates a powerful vacuum to remove difficult sand and debris whilst scrubbing the pool. VTX-3 is suitable for all pool material types. Its Crisscross Cleaning Pattern is best suited to pools with curved walls.

TRIPLE CLEAN WITH VORTEX ACTION

The powerful vortex vacuum gives your pool a true top to bottom clean by sucking up sand and debris, scrubbing away calcium and algae build up, and powering the Smart-Skim to pull floating leaves and insects into the skimmer box.

LARGE LEAF REMOVAL

The VTX-3's Side Leaf Scoops capture and remove light to medium leaf loads without interrupting its clean.

ENTIRE POOL COVERAGE

The Ultra Flex Hose and Adjustable Steering System create a Crisscross Cleaning Pattern to allow the VTX-3 to move freely and optimise coverage.

UNBEATABLE WARRANTIES

VTX-3 is built to last. It's covered by a massive 10-year Warranty on the Flow Drive - its single moving part, and a 1-year Full System Warranty. Plus, you have the back up of local service and support.

ONLY **GENUINE PARTS** STAND THE TEST OF TIME

It's quality that makes Kreepy Krauly Australia's best and longest-lasting automatic pool cleaning systems. If you fit inferior, non-genuine parts - you might save a dollar or two in the short term - but you're risking damaging the efficiency, reliability and long-life of your top-quality pool cleaner. Always choose Certified Genuine Kreepy Krauly parts and in the long run you'll save time, money and guarantee your Kreepy Krauly's lasting performance.
