

# Zodiac EL-1

saltwater chlorinator

The EL-1 is a great all round saltwater chlorinator which is suitable for all pool surfaces and most small to mid-sized residential pool in all climates.

If you're interested in converting to a luxurious saltwater pool, the EL-1 is the product you need

## Easy to Operate

The control panel is very intuitive and easy to follow. Set the clock, add in the times you want the EL-1 to operate throughout the day. Then simply select the correct output level to suit your pool and climate. Should any issues arise the control panel is equipped with LED's to alert you.

## Easy to Maintain

The process of saltwater chlorination is a fascinating and complex subject (too complex to discuss here) but let's just say that you need some really clever and well constructed materials to make it all work otherwise you will spend as much time maintaining the product as you will swimming.

The EL-1 uses nothing but the best materials as well as reverse polarity (self cleaning) technology to keep cell cleaning to a bare minimum. Plus the clear housing makes it easy to see when it needs any attention. The EL-1 sizing makes it suitable for most small to midsized pools in most climates across Australia

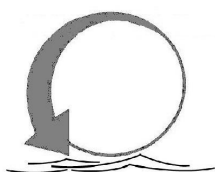

## Key Features

- Produces its own chlorine
- Reduces the potential for red eyes, skin irritation and unpleasant odours
- Destroys bacteria, viruses and algae in pool water
- Unaffected by bather load, heat or rain
- Self-cleaning electrode
- Easy "set and forget" operation
- Battery back up
- Reduces time spent on maintenance and manual cleaning
